If you are new to coaching and do not meet the able criteria you may be better seeking paid-for training, supervision and mentoring.

Finally, where coaching is on-line we need to understand Data Protection, Technology and Information Security issues, particularly where providing services outside of Europe and the reach of GDPR.

In some cases this may mean I am unable to provide on-line Peer Coaching, typically for example where Zoom, Teams or other platform do not offer the quality or security required.

## **WHAT ARE THE TERMS AND CONDITIONS?**

See my STANDARD TERMS AND CONDITONS the key point is that Peer Coaching follows the ICF Model Coaching Contract.

The Coach engages in training and continuing education pursuing and/or maintaining ICF (International Coach Federation) credentials. All coaching conversations are confidential and the abbreviated case above has been amended so as to protect the anonymity for the client whilst providing evidence of coaching practice, reflection and learning, for the purposes of ICF education, supervision, or oversight.

For Peer Coaching I will record the Zoom and send you audio or you can use <https://otter.ai/> to record and keep the transcript for your records
